

# Constructing and using a Line-Level

Sharing knowledge on the use and conservation of water for food production

## Type and Scale(s)

Preparatory Activity

Scales 1 and 2

## Description and Purpose

How to identify points of equal height (elevation) using this simple tool. How to make the tool, set levels and help mark out contours.

## Other Factors

Low technology,  
Local materials,  
Low level skills and understandings,  
Low cost,  
Low maintenance
